

LED Spere Direct Control 30 ORDERCODE 41125

SHOWELECTRONICS FOR PROFESSIONALS

Congratulations!

You have bought a great, innovative product from Showtec.

The Showtec LED Sphere Direct Control 30 brings excitement to any venue. Whether you want simple plug-&play action or a sophisticated DMX show, this product provides the effect you need.

You can rely on Showtec, for more excellent lighting products.

We design and manufacture professional light equipment for the entertainment industry.

New products are being launched regularly. We work hard to keep you, our customer, satisfied.

For more information: <u>iwant@showtec.info</u>

You can get some of the best quality, best priced products on the market from Showtec. So next time, turn to Showtec for more great lighting equipment.

Always get the best -- with Showtec!

Thank you!

Showtec

CAUTION!

Keep this device away from rain and moisture! Unplug mains lead before opening the housing!

FOR YOUR OWN SAFETY, PLEASE READ THIS USER MANUAL CAREFULLY BEFORE YOUR INITIAL START-UP!

SAFETY INSTRUCTIONS

Every person involved with the installation, operation and maintenance of this device has to:

- be qualified
- follow the instructions of this manual

CAUTION! Be careful with your operations.

With a dangerous voltage you can suffer a dangerous electric shock when touching the wires!

Before your initial start-up, please make sure that there is no damage caused by transportation. Should there be any, consult your dealer and do not use the device.

To maintain perfect condition and to ensure a safe operation, it is absolutely necessary for the user to follow the safety instructions and warning notes written in this manual.

Please consider that damages caused by manual modifications to the device are not subject to warranty.

This device contains no user-serviceable parts. Refer servicing to qualified technicians only.

IMPORTANT:

The manufacturer will not accept liability for any resulting damages caused by the non-observance of this manual or any unauthorized modification to the device.

- Never let the power-cord come into contact with other cables! Handle the power-cord and all connections with the mains with particular caution!
- Never remove warning or informative labels from the unit.
- Never look directly into the light source.
- Never leave any cables lying around.
- Do not open the device and do not modify the device.
- Do not connect this device to a dimmerpack.
- Do not switch the device on and off in short intervals, as this would reduce the system's life.
- Only use device indoor, avoid contact with water or other liquids.
- Avoid flames and do not put close to flammable liquids or gases.
- Always disconnect power from the mains, when device is not used or before cleaning! Only handle
 the power-cord by the plug. Never pull out the plug by tugging the power-cord.
- Make sure that the device is not exposed to extreme heat, moisture or dust.
- Make sure that the available voltage is not higher than stated on the rear panel.
- Make sure that the power-cord is never crimped or damaged. Check the device and the power-cord from time to time.
- If device is dropped or struck, disconnect mains power supply immediately. Have a qualified engineer inspect for safety before operating.

- If the device has been exposed to drastic temperature fluctuation (e.g. after transportation), do not switch it on immediately. The arising condensation water might damage your device. Leave the device switched off until it has reached room temperature.
- If your Showtec device fails to work properly, discontinue use immediately. Pack the unit securely (preferably in the original packing material), and return it to your Showtec dealer for service.
- For replacement use fuses of same type and rating only.
- Repairs, servicing and electric connection must be carried out by a qualified technician.
- WARRANTY: Till one year after date of purchase.

CAUTION! EYEDAMAGES!. Avoid looking directly into the light source. (meant especially for epileptics)!

OPERATING DETERMINATIONS

If this device is operated in any other way, than the one described in this manual, the product may suffer damages and the warranty becomes void.

Any other operation may lead to dangers like short-circuit, burns, electric shock, lamp explosion, crash etc.

You endanger your own safety and the safety of others!

Rigging

Please follow the European and national guidelines concerning rigging, trussing and all other safety issues.

Do not attempt the installation yourself!

Always let the installation be carried out by an authorized dealer!

Procedure:

- If a LED Sphere is lowered from the ceiling or high joists, professional trussing systems have to be used.
- Mount the LED Sphere to the trussing system.
- The LED Sphere must never be fixed swinging freely in the room.
- The installation must always be secured with a safety attachment, e.g. an appropriate safety net or safety-cable.
- When rigging, derigging or servicing the LED Sphere, always make sure, that the area below the installation place is blocked and staying in the area is forbidden.

Improper installation can cause serious damage to people and property!

Description of the device

Features

The LED Sphere Direct Control 30 is designed for the more demanding user:

- 3 DMX Channels (Red, Green, Blue)
- Controllable by DMX or built-in programs.
- Built-in Microphone
- 12 Dipswitches
- Only use Indoor
- RGB colourmixing
- Standalone, music control, Master-slave
- Fuse 1A 250V
- DMX IN and DMX OUT.

Overview

Fig. 1

- 1) Power cable
- 2) DMX signal connector (IN)
- 3) Dipswitches
- 4) Safety Eye
- 5) Microphone
- 6) DMX signal connector (OUT)
- 7) Fuse 1A 250V

Installation

Remove all packing materials from the LED Sphere Direct Control 30. Check that all foam and plastic padding is removed. Connect all cables.

Note: It's necessary to insert a XLR termination plug (with 120 Ohm) in the last fixture in order to ensure proper transmission on the DMX data link.

Do not supply power before the whole system is set up and connected properly. Always disconnect from electric mains power supply before cleaning or servicing. Damages caused by non-observance are not subject to warranty.

Set Up and Operation

Follow the directions below, as they pertain to your preferred operation mode.

Before plugging the unit in, always make sure that the power supply matches the product specification voltage. Do not attempt to operate a 120V specification product on 230V power, or vice versa.

Control Modes

When using the LED Sphere in stand-alone Mode, you must always set dipswitch #10 to ON.

1. Chase Mode

You can use dipswitches #1, #2 and #3 to set 8 different chases.

Note: You must also set dipswitch #10 to ON.

Chase 1: Red and Green Chase loop

Chase 2: Green and Blue Chase loop

Chase 3: Blue and Red Chase loop

Chase 4: Cyan and Red Chase loop

Chase 5: Magenta and Green Chase loop

Chase 6: Yellow and Blue Chase loop

Chase 7: Black and White Chase loop

Chase 8:7 Chases loop

2. Speed Mode

You can use dipswitches #4, #5 and #6 to set 8 different chases.

Note: Speed mode will only work if you have selected a chase. You must also set dipswitch #10 to ON.

3. Master/Slave Mode

In Master/slave mode set the Master unit to: (set dipswitch #10 ON, dipswitch #11 and #12 OFF)

Note: Be sure to also use dipswitches #1 - #3 (Chase) and #4 - #6 (Speed)

Set all the Slave units to: (set dipswitch #10, #11, #12 OFF)

Master

4. Sound Control Mode

When dipswitch #11 is turned on, the LED Sphere will automatically change its color to the beat of the music. With the Sensitivity control you can adjust its music-sensitivity.

Note: You must also set dipswitch #10 to ON.

DMX Controlled

- 1. Turn the power switch on. If the DMX cable has been plugged in, the LED next to the dipswitches will blink.
- 2. Now your unit is DMX-Controlled.
- 3. When all dipswitches are turned off, the LED Sphere is in DMX Mode. Dipswitches #1 #9 control the DMX Addresses.

DMX products must have their own "address" to receive DMX signals. Addresses on the controller are set by flipping the appropriate DMX dipswitches.

You need to know that DMX address settings are the sum of the dip switch values. A standard DMX address for a LED Sphere, which has 6 channels is as follow:

| LED Sphere | Address Value | DMX Dip Switches "ON" |
|------------|---------------|-----------------------|
| Unit 1 | 1 | #1 |
| Unit 2 | 7 | #1, #2 and # 3. |
| Unit 3 | 13 | #1, #3 and #4. |
| Unit 4 | 20 | #3 and #5. |

Explanation: Since each unit has 6 channels, each address advances 6 values (See Address Value above). Once address values are determined, set the appropriate DMX dip switches on each unit.

Example:

- 1. If you want to give a LED Sphere DMX address133, you first have to find the number 133 in the DMX Chart.
- 2. Then look at the left side (Dip Switches #1-#5) horizontally from 133. In the Table you'll see #1=ON, #2=OFF, #3=ON, #4=OFF, #5=OFF.
- 3. Finally look at the upper side of the table (Dip Switches #6-#9) vertically from 133. In the Table you'll see #6=OFF, #7=OFF, #8=ON, #9=OFF.

Maintenance

The Showtec LED Sphere Direct Control 30 requires almost no maintenance. However, you should keep the unit clean. Disconnect the mains power supply, and then wipe the cover with a damp cloth. Do not immerse in liquid. Do not use alcohol or solvents.

Keep connections clean. Disconnect electric power, and then wipe the DMX and audio connections with a damp cloth. Make sure connections are thoroughly dry before linking equipment or supplying electric power.

Troubleshooting

Showtec LED Sphere Direct Control 30

This troubleshooting guide is meant to help solve simple problems. If a problem occurs, carry out the steps below in sequence until a solution is found. Once the unit operates properly, do not carry out following steps.

- 1. If the device does not operate properly, unplug the device.
- 2. Check power from the wall, all cables, the fuse, etc.
- 3. If all of the above appears to be O.K., plug the unit in again.
- **4.** If nothing happens after 30 seconds, unplug the device.
- **5.** Return the device to your Showtec dealer.

Product Specification

Model: Showtec LED Sphere Direct Control 30 (41125)

Total LEDs: 81 (27 red, 36 green, 18 blue)

Power Supply: 240V Power Consumption: 12W

3 DMX Channels (Red, Green, Blue) Controllable by DMX or built-in programs.

Built-in Microphone 12 Dipswitches Only use Indoor RGB colourmixing

Standalone, music control, Master-slave

Fuse 1A 250V

DMX IN and DMX OUT. Dimensions: ø30cm Weight: 1,5 Kg
